

France The Opal Coast

The children visited the Opal Coast in France last year for the first time. It is a wonderful location, very rural with quaint streets and colourful markets. The children stayed in a beautiful modern barn conversion property set in rolling countryside.

The purpose of the visit was for children to practise their spoken French and to learn more about French food, culture and history. The children visited a goat cheese farm, a snail farm, a lovely food market, a WW1 cemetery and the picturesque seaside town of Le Touquet.

In March 2017 it will be year 4's turn to visit the Opal coast and if there are places available some year 3 and 5 children will be able to visit too.

Le Touquet

The children visited the WW I cemetery in Estaples.
