

## *Nepal 2018*

*School has supported an orphanage in Kathmandu called the 'Nepal Mary Child help center' for many years now and this is something we care about very much.*

*The orphanage has only basic amenities and resources and is completely reliant on charity. The surrounding area is extremely poor and was severely damaged by the major earthquake of 2015.*

*Despite the poverty the children always appear to be happy and content and make the most of what they do have.*

*Our staff try to visit Kathmandu every 2-3 years to see how we can help and support the children and to deliver resources and money that our children have raised.*
